# Introduction - Actual requirements

- ◆ **MobileShop** company, are one the retailing business entities engaged in selling, supplying Apple's products. The company has it own official store at Ho Chi Minh city. Our shop has become so popular that the demand for the products is not only coming from offline store but also the online market. A solution that we should have a web site of its own which will host information on the products of the company with the entire categorization.
- ◆ Our company has the latest Apples's products. And our shop is one the Authorized Reseller by Apple in VietNam.

## ◆ Functional

For user:

- Can register a member and manage personal account
- Can view and buy products
- Can comment for products
- Can view their orders status and order history

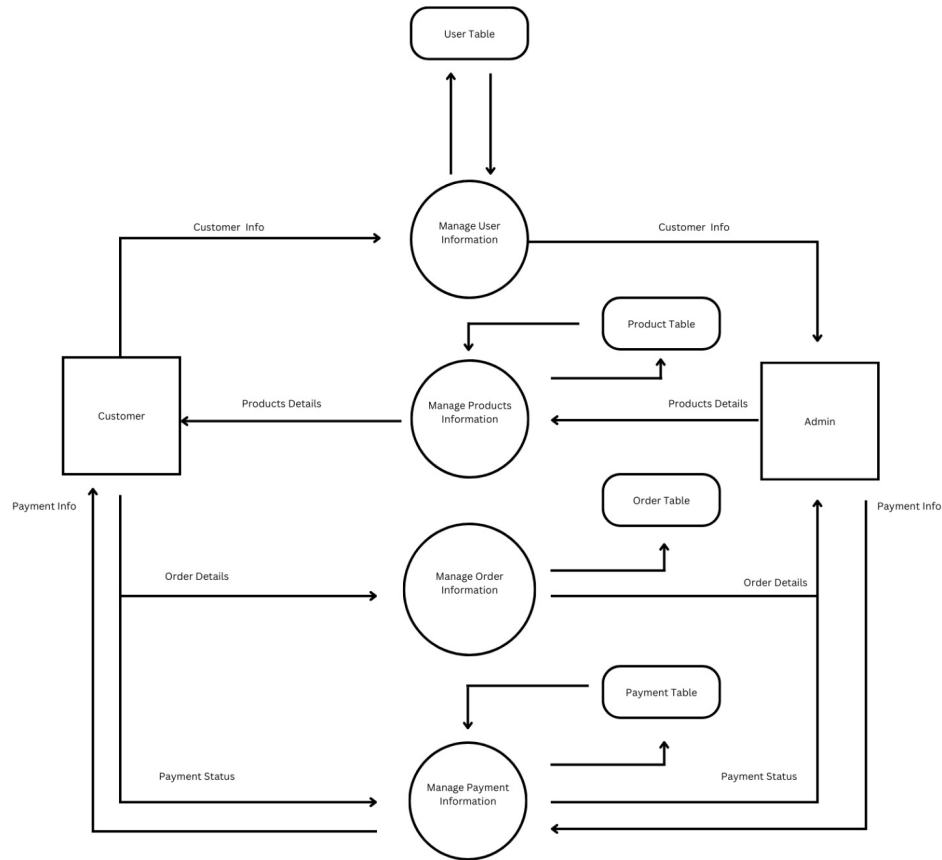

## ◆ **Functional**

For admin :

- Can reset user's password
- Can add/view/edit products, category
- Can view all orders and change status orders
- Can view all comments and delete the comments
