Acknowledge

As we understand that the Project is a step-by-step learning environment that closely simulates the class-room and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. laddered approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.
- ✓ Mentoring through email support.

We would like to send a great thank to our professor, Mr Le Thanh Nhan and others student for the addorable supports during the time in project.

Beside serveral mistakes we had made in the project, we hope to have more oppotunities to widen our knownledge in web developing world.

We also thank you so much for your infomation and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Our Sinncerely,

Team Group 2.

Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us front-end or back-end technology but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of Semester II, as well as special subjects those are Java and PHP. These programs should be done in the Lab sessions with assistance of the faculty if required.

The website (in this project) is a world that brings everything about the potteries and crockeries into your experience.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

Review 01

Design Plan: MobileShop	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 12-10-2022	Version 1.0	Page No: 1 of 52

Problem Definition

MobileShop company, are one the retailing business entities engaged in selling, supplying Apple's products. The company has its own official store at Ho Chi Minh city. Our shop has become so popular that the demand for the products is not only coming from offline store but also the online market. A solution that we should have a web site of its own which will host information on the products of the company with the entire categorization.

Our company has the latest Apple's products. And our shop is one the Authorized Reseller by Apple in VietNam.

Based on the need stated in the market, we design an application that will provide the key features and functionalities as the followings:

- ✓ Provide function for member register.
- ✓ Provide information of the product to customers and members.
- ✓ Provide shopping cart function so customers and members can order products.
- ✓ Receive comments from customers and members to improve service quality as well as product quality.

An Admin Control Panel (ACP) that supports about management system:

- ✓ Administrators the ability to add, update product information quickly and accurately.
- ✓ Administrators the ability to manage
- ✓ Administrators the ability to manage delivery progress belonging to orders.
- ✓ Administrators basic roles.

The Role of User and Admin:

1. User:

Effective Date: 12-10-2022	Version 1.0	Page No: 1 of 52

- Can register as a member and manage personal account.
- Can view their orders.

2. Administrator

- Can add / edit / deactivate products and categories, options
- Can view customer's information or update/delete/create an account.
- Can view all orders and approve orders.
- Can view report statistics.

Customer Requirements Specifications

User:

input:

- Member registration information.
- View product's information.
- Order selected products.

Process:

- Search products from database by categories, by product types.
- Process customer registration information.
- Process customer orders.

Output:

- Notification of successful registration / failure.
- Product information.
- Notification of successful making order order.

	Prepared by (Student) Project Group No 2:	Approved by (Faculty) LE THANH NHAN

Webmaster:

input:

- Administrator login information.
- Product and category information to add / edit / delete.
- Member information to be search / delete/ create/ update.
- Order information to be search / approve / create/ delete/ update.

Process:

- Add / edit / delete / views products.
- View information of all members.
- Change member account's status.
- View all orders.
- Update order status.

Output:

- Notification to add / edit / delete products success / failure.
- Notification to change member account's status.
- Notification to update order's status.

Screen shots

I. Homepage:

The screenshot shows the homepage of MobileShop. At the top, there's a navigation bar with links for Logo, Authorized Reseller, iPhone, iPad, Mac, Watch, Âm thanh (Audio), Phụ kiện (Accessories), Dịch vụ (Services), Khuyến Mãi (Promotions), Trả Góp (Installment), a search icon, a shopping cart icon with 0 items, and Đăng nhập (Login).

The main content area features a large banner for Marshall speakers with the text "XIN CHÀO MARSHALL! THẮNG HẠNG ÂM THANH BẬT TUNG ƯU ĐÃI" and a price of "Chỉ 6.390.000đ". Below the banner are three promotional boxes: one for iPhone 14 accessories (Phụ kiện iPhone 14 Giảm tới 44%, 1 đổi 1 trong 999 ngày, Xem ngay), one for AirPods (Miễn phí gói 6 tháng Apple Music Giảm tới 2.000.000đ, Mua ngay), and one for SHOPDUNK CARE (Authorized Service Provider, Trung tâm dịch vụ ủy quyền Apple, Chat Zalo (7h30 - 22h00), 1900.6626 (7h30 - 22h00), Messenger (7h30 - 22h00)).

Trang chu

a. Description

The homepage shows key informations about the shop's products and all the promotions and the services that our shop provides. Also, this is the first to interact with the customers, with this being set this page is crucially important.

b. From

This page is opened when someone is accessing the shop's website URL. It has a navigation bar on the top of the page, and also the bottom right menu for contact.
